# **RALLY** for Education

**Saturday, April 6**

**12 p.m. at Queen's Park**

Educators, parents, community groups and a growing list of unions have come together to defend high-quality, publicly funded education in Ontario.

Together, we are sending a united message to the Conservative government to stop the cuts to education.

In March the government proposed to:

- Increase class size in grades 4-8 and in high school;
- Download its obligation to support children with autism onto public schools without adequate funding; and
- Reduce the number of teachers and support staff in schools across the province.

We also know that the government is considering changing the existing model for Full-Day Kindergarten, which currently includes a teacher and a DECE.

**This plan needs to be stopped!**

Now is the time to double our efforts and fight for our high-quality publicly-funded education system that all Ontario students need and deserve.

**Contact your MPP today.**

**Send a message.  
Education needs investment not cuts.**
